Each of your miniatures will find a suitable compartment in the four half-size foam inserts designed for miniatures. Embedded in high-quality, soft foam, the sensitive parts of your figures are reliably protected from damage. The colours of the painted miniatures are just as safe from abrasion and scratches. Once the miniatures are safely stowed away, we turn our attention to your game material. We have packed another half-size insert in the bag for this purpose. You can recognise it by the card compartments with the finger-thick cut-outs. You can organise your cards and game material here. Finally, the foam lids supplied ensure that your pieces are securely packed all round and survive transport to the gaming table undamaged. The double-sided game boards and the rules booklet can be stored between the toppers. The Feldherr MAXI bag is made from particularly hard-wearing material. Padded side sections and a reinforced base ensure that the miniatures are also protected when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
