MAXPLUS07 - MAXI PLUS bag for tanks/monsters and 75 miniatures

from **60,90 EUR**

Item no.: 377963
shipping weight: 1.10 kg
Manufacturer: Feldherr

Product Description

Feldherr has this MAXI PLUS bag with the right foam for vehicles, monsters and up to 75 miniatures on large bases (up to 40 mm) to ensure that your tanks continue to roll and your miniatures remain intact. The fine-pored foam offers the best possible protection against damage - fragile parts remain intact, paint applied to painted models remains undamaged. The grid foam insert is pre-perforated with a 14 mm x 14 mm grid. To adapt it to your models, remove the appropriate foam segments and then glue the inlay to the base supplied. Done! The three full-size foam inserts are suitable for models on round or square bases up to 40 mm. Protruding models on 32 mm bases fit very well here. Each of the 25 compartments of the three inserts is 54 mm long x 41 mm wide x 40 mm deep. Naturally, the inserts fit exactly into the sturdy MAXI PLUS bag. This is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that your models are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap. The matching foam lid completes the set. Place it on top of the stack of inserts to ensure that nothing falls out during transport.
