Product Description

You are ready to plunge the galaxy into a terrible darkness. Gather your troops of soulless Necrons and march against the human worlds. To ensure that no warrior is left behind and that you can always unleash the full might of the Necrons, this Feldherr MAXI PLUS bag comes with customised foam inserts. This way, nothing stands in the way of the Necrons' march. Spread over one full-size and 4 half-size inserts, this bag stores over 45 miniatures of your army. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted Necrons from abrasion and scratches. You need a fearsome leader on your raids, and of course he needs a suitable inlay to recover between battles. 14 compartments offer you space for up to 14 miniatures of your army. Illuminor Szeras and a retinue of Immortals, Flayed Ones and models with similar dimensions will find suitable compartments in the insert. The insert with the three large compartments is ideal for storing larger Necron miniatures. For example, you can safely store your Catacomb Command Barge/Annihilation Barge (without flying base) or Canoptek Wraiths here. Up to 5 Necron miniatures can be safely stored in this Feldherr half-size foam insert. The different sized compartments are ideal for storing larger miniatures such as a Canoptek Reanimator as well as standard models in a well-organised and well-protected manner. The half-size foam insert with 6 large compartments is ideal for storing and transporting medium-sized Necron models neatly and safely. The insert is particularly suitable for Destroyers or Tomb Blades, for example. This Feldherr foam insert has space for up to 22 miniatures from your army. The insert is particularly suitable for storing Necron Warriors, Deathmarks and models with similar dimensions, for example. Finally, the included foam lid ensures that your figures are safely packed and survive transport to the gaming table undamaged. Of course, the inserts fit exactly into the sturdy MAXI PLUS bag. This is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that your models are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
