Product Description

Drukhari are notorious corsairs who raid slaves for their home city of Commoragh. With this Feldherr MAXI PLUS bag, you can transport over 50 miniatures of your army to the battlefields of the 41st millennium. This bag stores over 50 miniatures of your cold-blooded Drukhari in one full-size and four half-size inserts. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted Dark Eldar from abrasion and scratches. We have included a half-size set consisting of two inserts in the bag so that you can strike fear into the hearts of your opponents with firepower and speed. The two inserts offer you enough space for a Shadowhunter / Ravager and up to 14 other figures. Here you can accommodate infantry figures from the Archon to the lowly Kabalite Warrior on 32 mm - 40 mm bases. The half-size insert with seven differently sized compartments offers space for different models. You can use the large central compartment of the foam insert for a Venom, for example. Use the remaining compartments for your flying base or expansive miniatures, such as a Succubus or Scourges. Drazhar, including an Incubi retinue, could also find a safe place to be stored here. The insert with 9 compartments is particularly suitable for storing up to 8 Reavers (without a flying base) and models with similar dimensions. You can store the flying bases in the square compartment. The full-size foam insert is ideal for storing standard infantry miniatures. Kabalite Warriors, Wyches as well as Mandrakes and Wraks will find sufficient space in the 22 compartments of the insert. The foam mat supplied serves as a height leveller. Finally, the supplied foam lid ensures that your marauders are securely packed all round and survive transport to the gaming table undamaged. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for rulebooks and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
