### Product Description

The Marvel universe is making its way onto your gaming table. And not just there. More than 80 detailed miniatures not only need to be well protected, but also compact and transportable. How good that we have heroically mastered this challenge. Here is the matching Feldherr MAXI PLUS bag including foam for all your Marvel United miniatures. From Rocket to M.O.D.O.K. to Falcon - every hero and every villain gets their own compartment here. The majority of the miniatures can be accommodated on the three full-size foam inserts. For larger models, such as Rhino or Baron Zemo, there are suitable compartments on the two half-size inserts. The figures are well protected in the soft foam. Sensitive details are thus safe from damage. Precisely fitting compartments ensure that the models do not slide around when travelling. This also protects the painted miniatures from scratches, abrasion and chipping paint. This set is designed exclusively for storing the miniatures. Game boards, cards and additional game material must be transported separately. Finally, the supplied foam lid ensures that your figures are packed securely all round. The comfortable MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side sections and a reinforced base ensure that your miniatures are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store the game instructions, the game board or other small accessories, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
