### Product Description

When the Drukhari meet the Adepta Sororitas in the Metalica war zone, the clashing world views could not be more opposite. On the one hand, the Dark Eldar revel in the suffering of their opponents. On the other, the Sisterhood draw their strength from their faith in the God-Emperor. No matter who you favour, piety or torture, with the Feldherr MAXI PLUS bag you can transport the miniatures of both sides safely and well protected to the battlefield. The 26 miniatures of the game set are safely stored in this MAXI PLUS bag, spread across five half-size foam inserts. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted Drukhari or Adepta Sororitas from abrasion and scratches. Led by the greatest warrior the arenas of Commorragh have ever produced, the Drukhari charge into battle. Knowing full well that talking back will result in a cruel death. Lelith Hesperax finds a suitable compartment in the 60 mm high insert to recover from the rigours of battle. Bulky miniatures, such as the Scourges, can be stored in the other compartments. The large compartment in the centre of the 120 mm high foam insert offers enough space for the Venom model (without flying base). You can store other Scourges from the playset in the other compartments, where they are well protected. Your ten wyches can be safely stored in the half-size foam insert with twelve compartments, giving you a rest from the battle. Each of the 12 compartments is 54 mm long x 41 mm wide x 30 mm deep. The Immolator and the Palatine epitomise everything that makes up the Sisters of Battle. It is both a shrine and a weapon, a masterpiece in honour of the Lord of Mankind and a rolling bulwark of destruction. It is a beacon of hope for all who seek guidance in dark times. Together with the Immolator model, the Palatine finds the necessary security in the highest inlay. In the large compartment in the centre, the Immolator model stands securely and completely surrounded by foam. You can store the Palatine in one of the four remaining compartments. Each of the four compartments is 72 mm long x 65 mm wide x 130 mm deep. You can store the five miniatures of your heavily armed Retributor squad together with the two Armorium Cherubim in the half-size foam insert with 10 compartments. Can also be used to store game material. The foam lid supplied completes the set. Thanks to it, the miniatures are protected from all sides by soft foam. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for the campaign book, data sheets, rulebooks and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
