Whether it's the members of the Suicide Squad like Captain Boomerang or King Shark, or you need space for the members of the League of Assassins like Ra's Al Ghul, every figure gets the right compartment. This ensures that the miniatures sit securely and do not slip during transport. The soft, fine-pored foam protects intricate details from breaking off and the colours of your painted models from scratches and paint abrasion. We have packed a half-size insert with separate card compartments in the bag to sort your playing cards. The finger-wide cut-outs make it easier for you to remove the decks of cards. Of course, the cards also fit with protective sleeves. This is complemented by a plastic card holder in which you can store your mini cards. The various tokens can also be stored in the insert. You can store various tiles, hero and villain sheets and other accessories in the lowest half-size insert. Finally, you can secure the top of the inserts with the foam lid supplied. Surrounded by soft foam, your miniatures are optimally protected every time you walk through Gotham's dark alleyways. The campaign booklets, the Bat-Tablet and the Assembly Guide can be placed on the lid. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for rulebooks and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
