from **71,59 EUR**

Item no.: 377952
 shipping weight: 1.10 kg
 Manufacturer: Feldherr

Product Description

Even in death you find no peace. You have been raised from the dead to put a bloody end to the false idols. As if life as an undead hero isn't hard enough, "Sword & Sorcery: The Old Chronicles" comes with a packed board game box. Countless tokens, tiles, books, cards and figures need to be transported properly to the gaming table. That's why we've filled the matching MAXI PLUS bag with matching foam inserts and token holders for the game. This ensures that all the game material and figures can be transported well organised and safely packed. The bag offers space for all miniatures and the corresponding game material from the "Sword & Sorcery: The Old Chronicles" base game. While you save the day, we take care of the safety of your miniatures and the organisation of your game material. The plastic card holders and smaller foam compartments allow you to neatly organise your game material, while the larger foam compartments protect your miniatures from damage. All cards also fit into the card compartments with protective sleeves. This means your game material is always to hand and your miniatures are reliably protected from damage. You don't have to worry about scratches and chipped paint on your painted figures or broken details on your miniatures. The foam covers supplied provide the final layer of protection. Whether hero or boss monster, each miniature has a custom-fit compartment in the foam inserts. Thanks to these, the miniatures sit firmly in place. Even if things get a little bumpy during transport, they won't slip and will stay in place. Storybook ACT 1, Book of Secrets ACT 1, Rulebook, Reference Sheet, Notes Reference, Double-Sided Site Sheets and the Hero Sheets can be placed in the front pocket of the MAXI PLUS bag. The MAXI PLUS bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that your models are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, the bag can also be used comfortably as a shoulder bag thanks to the wear-resistant, detachable shoulder strap. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.
