Product Description

Transport and store more than 65 miniatures of your T'au army safely and comfortably with the shoulder bag. They may be the youngest race in the Warhammer 40,000 universe, but they should not be underestimated, because advanced equipment, dynamism and a good dose of optimism have already convinced many opponents of the Tau'va. To ensure that the greater good reaches all corners of the galaxy, this Feldherr MAXI PLUS bag ensures that your T'au army arrives safely at the gaming table. A half-size insert is customised for a model of the Hammerhead Gunship. The MV1 Gun Drones and the vector thrusters remain intact during transport, as does the powerful ion cannon. Embedded in high-quality, soft foam, the colours and decals of the painted miniature are also safe from abrasion and scratches. The insert is designed for both build variants - the TX7 Hammerhead Gunship and the TX78 Sky Ray Gunship. The TY7 Devilfish also fits. One of the two rectangular compartments serves as storage for the base. The second can be used for another unit (e.g. X85 Enforcer). Each of the two rectangular compartments is 70 mm long x 64 mm wide x 95 mm deep. Two half-size inserts, each with 12 compartments, offer you enough space for T'au Empire Commander models (X85 Enforcer and X86 Coldstar Battlesuit with flying base), XV88 Broadside Battlesuits and for small models such as Pathfinders and Drones. The half-size insert with 16 compartments offers you space for simple infantry units. Each of the 16 compartments is 54 mm long x 35 mm wide x 40 mm deep. Up to 25 standard units in the size of the XV25 Stealth Battlesuit find a safe place on the full-size insert. Each of the 25 compartments is 54 mm long x 41 mm wide x 40 mm deep. The included foam lid rounds things off and ensures that the miniatures in the upper insert are also ready for the next battle. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for the T'au codex and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to keep your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
