from **64,47 EUR**

Item no.: 377945
shipping weight: 1.00 kg
Manufacturer: Feldherr

Product Description

With this shoulder bag, you can safely store and transport up to 16 miniatures of your Adeptus Titanicus army. The earth shakes and buildings burst under the mighty footsteps of the Titans. Whenever the Empire sends out Titans, they leave nothing but scorched earth in their wake. The immense destructive power of a single Titan is difficult for the human mind to comprehend, but to witness the devastation left behind by an entire army ... Our Feldherr MAXI PLUS bag for Adeptus Titanicus, on the other hand, is easy to grasp. Durable, sturdy and with a timeless design. Thanks to the practical carrying strap, you can sling it elegantly over your shoulder and your Adeptus Titanicus army is perfectly protected from damage thanks to the inserts supplied. Made from fine-pored foam, they prevent delicate parts from breaking off and your elaborately painted models from being scratched or abraded. Every Collegia Titanica battle machine is robust and powerful enough to take on an enemy army on its own. The HSMEFQ110BO foam insert ensures that your Warlord Titan and 3 Questoris Knights arrive safely on the battlefield. In addition to a customised compartment in which a Warlord Battle Titan can be stored horizontally, there are 3 compartments under the large Titan for the three Questoris Knights miniatures. Despite their armour and deflector shields, your detailed models should be stored in a safe place like the Feldherr Half-Size tray HSMEHK085BO before and after every battle. It has four customised compartments in which you can store 4 Warhound Scout Reaver Titan models horizontally. The half-size foam tray HSMEQB030BO is divided into 5 compartments in 3 different sizes. Ideal for neatly storing accessories such as cards, tokens and bases. If your Titans aren't in the thick of battle, you'll want to offer your precious, detailed miniatures a little more protection. Thanks to the full-size foam inlay FSMEHL110BO, Titans, Warhounds and Questoris Knights get the attention they all deserve and are perfectly equipped for the next battle. The foam toppers supplied round things off. The half-size topper is used as a height leveller and the full-size foam lid ensures that the miniatures in the upper insert are also equipped for the journey to the next battle. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
