Embedded in high-quality, soft foam, the sensitive parts of your figures are reliably protected from damage. The colours of the painted miniatures are just as safe from abrasion and scratches. For the Necromantic Dragon and the Tainted Abomination, we have packed a 90 mm high raster foam insert. The pre-punched 14 mm x 14 mm grid makes it easy for you to design the compartments specifically for the two models. The mat has a self-adhesive underside. After removing the foam segments, all you have to do is peel off the film and stick on the base supplied. Your customised foam inlay is ready. You can store your rulebook, cards and game material in the full-size inlay with the large compartment (FS050I031BO). The foam lid supplied seals the deal. It ensures that the miniatures in the upper insert are protected on the way to the next adventurer. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for writing materials, booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag comfortably as a shoulder bag thanks to the wear-resistant, detachable shoulder strap.
