Product Description

Feldherr bag with 2 foam inserts for up to 8 larger models. Larger models can be a problem if you want to transport them safely. With this in mind, we have put together this set. It consists of 2 full-size foam inserts with a total of 8 generously sized compartments. Here you can store most of the larger monster and vehicle miniatures from various board games and tabletop game systems and transport them in style in the MAXI PLUS bag. The included foam lid rounds things off and ensures that the miniatures in the upper insert also reach the next battle undamaged. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag comfortably as a shoulder bag thanks to the wear-resistant, detachable shoulder strap.
