Product Description

For safe storage and transport of ship models and accessories for the Age of Sails game from Warlord GamesSmall skirmishes on the coast or epic battles on the open sea - with our Maxi Plus bag specially designed for the Age of Sail Battle Game "Black Seas", you are perfectly equipped to take your fleets out to sea ready to sail and fight. A total of four foam inserts offer you enough space to safely transport more than 40 ships to the gaming table. Embedded on high-quality foam, the delicate models are optimally protected from damage. The masts remain standing and the sails set, even after an eventful tour of public transport. You no longer have to worry about the painted miniatures either. The painstakingly coloured models remain undamaged and are spared scratches, flaking paint and abrasion. The two inserts with 6 compartments are ideal for protecting all large ships (medium to extra large), such as frigates. The small ships (Tiny and Small), such as the brigs, are in good hands on the flat inserts, each with 16 compartments. There is a slas space for game material. Each of the 16 compartments is 74 mm long x 56 mm wide x 30 mm deep. Finally, a lid made of nubbed foam ensures that your squadrons are securely packed all round and that everything is perfectly equipped for transport. Even more accessories, such as the rulebook or the folded play mat, can be stowed on top or in the compartment at the front of the bag. The Feldherr MAXI PLUS bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the miniatures are excellently protected from external influences, even when transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store booklets, the play mat and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry th
