ME106BO - MEDIUM bag for Nemesis: Lockdown - Stretch Goals

from **45,10 EUR**

Item no.: 378176
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

So that the cold of space isn't completely lonely, you thought you could spice up your team evenings with Nemesis: Lockdown. You couldn't miss out on the exclusive Stretch Goal Box from the Kickstarter campaign and can now enjoy the additional content such as the new alien race, miniature doors, the Landrover and many new maps. To ensure that the aliens are not directly threatened with extinction and their models die early, we have the matching MEDIUM bag including Feldherr foam inserts for you. In it, you can transport all the unlocked physical contents of the Stretch Goal Box to the gaming table without damage. There are many dangers lurking in space, just as there are in everyday life. To offer your miniatures the best possible protection when travelling, we have equipped the bag with four Feldherr foam inserts. Whether it's a door, Land Rover or alien queen, each model has its own customised compartment. Thanks to the customised cut, the miniatures fit snugly. Even during transport through the depths of space, the figures stay in place and do not slip. The soft, fine-pored foam protects intricate details from breaking off and the colours of your painted models from scratches and paint abrasion. The cards and game material are also taken care of. The cards are stored in the insert with seven compartments. Here you will find corresponding card compartments with finger-wide recesses that make it easier to remove the cards. Simply stack the normal-sized cards in two of the card slots. Insert the plastic insert into the third compartment and place your small-format cards there. They will then sit securely in the saddle. Of course, the cards also fit into the compartments with protective sleeves. Distribute the remaining small-format game material over the free compartments. Finally, cover everything with the foam lids provided. This way, the models are well protected and nothing can fall out of the inserts. You can either place the "Untold Stories" comic book between the two lids or put it in the small side compartment of the bag. The Feldherr-MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip on the front. Here you can store booklets, tiles and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. Details: high-quality, fine-pored foam - Made in Germany - chlorine-free and acid-free - thermoplastic plastic/thermoplastic material - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany
