### Product Description

Don't know how to store your board game or tabletop miniatures properly? The best way is in our MEDIUM bag with the matching foam insert for up to 44 miniatures on a 40 mm base. The foam inserts have a total of 44 compartments in which you can store miniatures on a 40 mm base safely and neatly. The fine-pored foam offers the best possible protection against damage - sensitive parts remain undamaged and the colour applied to painted figures is retained. The Feldherr MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the contents are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. It can also be locked and unlocked with an optional padlock. Here you can store the Codex and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap. The matching foam lid completes the set. You place this on top of the insert - this way, nothing can fall out or bump against the cardboard lid unprotected during transport.
