Product Description

First you feel a slight tremor in the earth, then you see it in the water, and when it bursts out of the trees, it's usually too late to run away. In the optional buy "The Thunderjaw Expansion", you have to deal with one of the biggest and most dangerous enemies in Horizon Zero Dawn, the Thunderjaw. It towers over your characters and makes them look like insects. Detailed mechanical parts adorn the surface of the model. To prevent them from being scratched during transport or the delicate tail from breaking off, we have included the practical MEDIUM PLUS bag with matching Feldherr foam insert. This allows you to store the large model of the Thunderjaw and the accompanying playing cards and transport everything neatly and well protected to the next monster hunt. The set consists of: - 1 Feldherr MEDIUM PLUS bag - 1 full-size foam insert with 7 compartments for Thunderjaw and cards (FSMFDE145BO) - 1 foam lid We have included 1 full-size foam insert in the set for your game material and the giant Thunderjaw miniature. The large model has a precisely cut compartment. This ensures that the miniature sits securely and cannot slide around and become damaged during transport. Surrounded by soft foam, it is optimally protected from damage. If you paint the Thunderjaw, you can also be sure that the colours are protected from scratches and abrasion. Behaviour Cards, Thunderjaw Data and Disc Launcher Cards, as well as the 13 Tracking Deck Cards can be easily sorted into the free compartments.
