Product Description

As rarely as the word "peace" has been heard in the 41st millennium, it no longer seems to exist in these times. There is war everywhere and the Empire has never been closer to the brink of annihilation. But it is precisely in times like these that heroes are born - or rather created. From what we've heard from the Paria war zone, this mission requires more than heroes, it requires champions. To ensure that your Ultramarines arrive at the theatre of operations unscathed, we have filled this bag with the right inserts to protect your Indomitus miniatures. Four half-size inserts in this bag ensure that all the miniatures in your Imperial force are neatly stowed away and ready for battle in the Paria nexus. Precisely fitting compartments for each individual model prevent the figures from sliding around or bumping into each other during transport. This also protects the colours of the painted Space Marines from abrasion and scratches. The insert with 7 compartments offers space for the three Excursors. The soft foam optimally protects the sensitive parts of the bikes from damage so that the bolters and the Astartes chainsword are ready for use. One of the elongated compartments can be filled with the Blade Guard standard bearer. This leaves you two compartments for other units. For the rest of your squad, such as the captain, lieutenant, the order priests and the ten Storm Intercessors, there is the right place for every miniature on the two inserts, each with 10 compartments (HSLM050BO). And because you can never have enough warriors in the face of this massive xenos threat, you also get a foam insert for 12 more marines. Finally, the included foam lid ensures that your miniatures are securely packed and survive transport to the gaming table undamaged. The Feldherr MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base ensure that the miniatures are well protected even when transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store the codex, booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
