from **50,20 EUR**

Item no.: 378084  
shipping weight: 0.30 kg  
Manufacturer: Feldherr

### Product Description

Peace is a dream for the weak. There is eternal war and the Empire is defended on land, at sea, in space and in the air. The pilots of the imperial war fleet protect humanity every day anew. With daring manoeuvres, unerring precision and a good shot of heroism, they defy the invading xenos. With this Feldherr MEDIUM bag and the matching foam inserts, your heroes of the skies will arrive safely and comfortably at the gaming table. Six half-size inserts ensure that all the miniatures in your Imperial war fleet are neatly stowed away. Precisely dimensioned compartments for each individual model prevent the figures from sliding around or bumping into each other during transport. This also protects the colours of your painted aircraft from abrasion and scratches. Regardless of whether you play them as bombers or destroyers, you can store a total of 6 miniatures in the two foam inserts, each with six compartments. You can use the remaining compartments for small parts such as tokens or dice. Whichever construction variant you prefer, you can safely store up to six Lightning Fighters models in each of the two inserts with 11 compartments. You can store markers or small parts such as rockets and bombs in the narrow compartments. And you can pack the bases in the hexagonal compartments. Thanks to its all-round capabilities, the Thunderbolt Fighter is the standard fighter of the Imperial Fleet. Six aircraft of the Thunderbolt Fighter or the more offensive Fury Fighter variant can be accommodated in the tray with 10 compartments. The foam tray with eleven compartments is available for your bases. The hexagonal compartments are particularly suitable for tidy storage of the bases. The three small compartments in the centre can be used for tokens and other accessories. A half-size mat is included as a height leveller. Finally, the supplied foam lid ensures that your figures are securely packed all round and survive transport to the gaming table undamaged. The Feldherr MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base ensure that the miniatures are well protected even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
