Product Description

Practical shoulder bag incl. foam inserts for safe and convenient transport of up to 76 mechs. Off to battle - but not without our MEDIUM bag with matching foam inserts for up to 76 mechs. The 2 foam inserts with 10 compartments each are suitable for particularly large BattleMechs - you can safely stow up to four mech lances including accessories here. You can safely store up to 8 lances in the 2 foam inserts with 16 compartments each. The foam insert with 24 compartments is suitable for two mech companies including accessories. Our fine-pored foam naturally offers your battle machines the best possible protection against damage - delicate parts remain undamaged and applied paint does not scratch. Two matching foam lids complete the set. One lid is used to equalise the height of the two stacks of inserts in the MEDIUM bag. The other lid acts as a cover to ensure that no mech falls out of the inserts during transport. The MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the figures are optimally protected from external influences during transport by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front.
