Product Description

Store and transport all 56 miniatures neatly and safely in the convenient MEDIUM bag. Once upon a time there were lovingly designed miniatures. They wandered through Grimm's forests and were ashamed of their grey surface. The owner showed mercy and gave the pigs and monsters some colour. However, after all that work, he was afraid that the colours might scratch, so he looked for a fine solution to keep them safe. The Feldherr heard about this and set to work. And this foam-filled medium bag is the result. Provides space for the 4 pig miniatures, the 6 monster figures, the Starting Player Token and the 45 components of the little houses from the board game "The Grimm Forest" by Druid City Games. Each individual house component is allocated its own precisely fitting compartment on the large insert. This ensures that they do not slide around and bump into each other during transport. The painted figures are thus optimally protected from chipping paint or scratches. The two half-size inserts hold the Starting Player Token as well as the pig and monster miniatures. This also gives the giant, the wolves and the four little pigs a safe place to hide. Finally, a foam lid ensures that your figures are securely packed all round and perfectly equipped for transport. The Feldherr MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
