### Product Description

Ruins, scrap, anarchy, orcs and an overwhelming amount of Waaagh energy - the macropolises of Krongar are not a place that imperial warriors like to enter. Especially not when the mighty Ghazkull Thraka and his barbarian hordes are raging here. But the tide turns with the arrival of Ragnar Blackmane and his fierce elite troops. In this battle, every unit and every weapon counts. To ensure that your troops are always ready for the upcoming battles, you get the matching MEDIUM bag including foam inserts to protect your miniatures. With the four Feldherr inserts included in this set, you can store all 23 miniatures - both the Space Wolves and the Ork units - safely and neatly. The insert with 15 compartments offers safe shelter for all 11 miniatures of Ragnar Blackmane's troop. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted marines from abrasion and scratches. The Wolf Lord is stored in one of the two large compartments. Distribute the Infiltrators and Incursors between the other compartments. The soft foam optimally protects the sensitive parts of the finely detailed miniatures from damage. This means that the bolt pistols and the frost trap remain ready for use and the fragile antennae also remain intact. Four compartments leave you space for troop supplies. The Waaaghboss has its shelter in the foam insert with 7 compartments. The large compartment is specially reserved for Ghazghkull Thraka. You also get 4 compartments for larger miniatures from your horde, such as the Meganobz or the Gretchin Makari. The two small compartments are ideal for the Orc minions, the Grot Oiler and Ammo Runt. The third compartment has space for the five Nobz. There are also 5 compartments free for other units. As a bonus, you also get a fourth insert to store your dice. Up to 77 pieces with an edge length of 14 mm can be neatly stored here. Finally, a foam lid ensures that your figures are securely packed and ready for transport to the gaming table. The Feldherr MEDIUM bag is made of particularly hard-wearing material. Padded side sections and a reinforced base ensure that the miniatures are well protected even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store the codex, booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
