Product Description

For safe storage and convenient transport of the terrain miniatures and many other Kill Team models If you want to store your new terrain miniatures safely and transport them conveniently to the next tournament, our MEDIUM bag for Kill Team: Arena is the right choice. The bag is filled to the brim with customised foam and offers comprehensive protection as well as additional space for other Kill Team figures. You can store all the doors, windows, boxes, pipes and cylindrical containers of the Arena expansion in the 3 inserts for the terrain miniatures. The fine-pored foam reliably protects your models from damage. Intricate parts remain intact, applied paint remains undamaged. 2 additional inserts offer space for up to 26 Kill Team miniatures. One mat with 10 compartments is ideal for many warrior models of different sizes on bases up to 40 mm. The second tray with 16 compartments is ideal for smaller standard miniatures on bases up to 30 mm. This keeps your figures organised and ready to hand at all times. Of course, the inserts fit exactly into the robust MEDIUM bag. This is made of particularly hard-wearing material. Padded side sections and a reinforced base also ensure that the miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store the rulebooks, for example. The set is rounded off by the matching foam lid. This ensures that nothing can fall out of the top insert. The 2 game boards printed on both sides also fit in the bag.
