from **48,83 EUR**

Item no.: 378109
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

Foam-filled Feldherr bag for the safe transport of a Corvus Blackstar, two Kill Teams, a Watch Master and up to 14 other Space Marines of the Deathwatch. Only the best of the best have the chance to serve the Emperor in the ranks of the Black Spear Strike Force. Pure power paired with stoic rage against the enemies of the Empire, first-class equipment and an unshakeable belief in humanity make the squad almost unstoppable. Almost! So that nothing happens to the finely detailed miniatures on the way to the next mission, here you get the comfortable MEDIUM bag including foam inserts especially for your Strike Force. The large insert is customised for the flyer model. The miniature-specific compartment ensures that the Corvus Blackstar lies absolutely securely in its compartment during transport and does not slide around. This not only protects the wings and weapons from breakage and other damage. The colours of the painted model aircraft are also protected from abrasion and scratches. The flight base stand on the oval base is placed in the compartment next to it. Three small compartments are available for you to use and can be used to store miniatures (e.g. Watch Master, Deathwatch Kill Team), game material and other small parts. The other units are also allocated the appropriate compartments. Once the two Kill Teams, the Watch Master and the Blackstar have been stowed away, you still have 14 compartments left. This gives you enough space to add more Space Marines to your squad. The foam lid supplied ensures that the models are packed securely all round. This means your Strike Force is ready to travel and you can set off on your next mission at any time. The Feldherr MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the contents are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip on the front. Here you can store the Codex and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
