### Product Description

For safe storage and convenient transport of your miniatures collection including tanks / monsters! If you want to store your miniatures collection safely and transport it comfortably to your friends, you've come to the right place. The Feldherr MEDIUM PLUS bag for 100 miniatures and tanks / monsters is filled to the brim with matching foam. The fine-pored foam reliably protects your miniatures from damage - filigree parts are preserved, surfaces are spared from scratches. The foam inserts with 50 compartments each are ideal for many standard tabletop and board game miniatures in 28 mm scale. The grid foam insert is ideal for storing large miniatures such as monsters, tanks or other vehicles. The insert is pre-perforated with a 14 mm x 14 mm grid. To customise it to your needs, remove the appropriate segments and then glue the inlay to the foam base supplied. Done! Of course, the inserts fit exactly into the robust MEDIUM PLUS bag. The bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the contents are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Sheets, books and other accessories can be stored here. The matching foam lid ensures that nothing falls out during transport.
