Product Description

For safe storage and convenient transport of all game materials from the Kickstarter campaign - including all miniatures and add-ons Feldherr has created this MEDIUM PLUS bag so that you don't lose your "Vast: The Crystal Caverns" game materials in any dark corners or even caves. With the robust bag and the matching foam inserts, you can organise all the content from the Kickstarter campaign - including miniatures and add-ons - and transport it conveniently to your next game night. The set has 5 foam inserts in which you can store all your miniatures, markers, tokens, dice and (sleeved) cards safely and neatly. This keeps your game materials organised and in view at all times. The fine-pored foam offers optimum protection against damage - your fantastic miniatures remain undamaged and surfaces do not get scratched. The set also includes two foam lids - one foam lid serves as a height leveller for the stacks of inserts, the second lid acts as a cover to ensure that nothing falls out during transport. Simply place the larger game components - game boards, rulebook, rule sheets, 2 larger game board components - on top of the stack in the bag. The robust MEDIUM PLUS bag is made from particularly hard-wearing material. Padded side sections and a reinforced base also ensure that the contents are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
