Product Description

Transport the 12 miniatures, 48 terrain pieces and the game material from the Paria-Nexus game set for Kill Team conveniently in the MEDIUM PLUS bag. The marines are penetrating deeper and deeper into the ancient shafts of Vertigus II. But the shadows before them have claws of living steel. In the fire of the bolt rifles, grotesquely adorned warriors emerge, seeking the marines' lives. This Feldherr MEDIUM PLUS bag is available so that you can explore the secrets of the Pariah Nexus at your next game night. The contents of the "Paria-Nexus" game set from GamesWorkshop are perfectly stored in the practical bag including Feldherr foam. The miniatures, terrain components and mission objective cards of the game set are safely stored in one full-size and five half-size foam inserts. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted Space Marines or Necrons from abrasion and scratches. Led by a Space Marine Captain in Gravi's armour, the five Heavy Intercessors follow him into battle. Not only do they go through hell for him, they also take on soft foam. The 50 mm high half-size foam insert offers 10 compartments for your miniatures. As the Chronomancer and a Flayed One believe that you should be closer to your enemies than your friends, you can place them right next to the Primaris. The remaining Flayed Ones lurk together with the mission objective cards in the other insert with 10 compartments. To make it easier for you to remove the cards from the foam compartment, it has been provided with a finger-thick recess. Of course, the cards also fit in the compartment when packed in protective sleeves. We have packed 3 matching foam mats in the bag so that the 48 terrain parts don't fly around your ears during transport. This allows you to protect doors, quantum nodes, thermal rings and induction diodes from unwanted kinetic energy. Whether you want to supplement your existing kill teams or prefer to send fresh blood to the slaughter, we've got you covered. We have given the set an additional insert with 10 compartments. This means you are ideally prepared for future missions. The foam lid supplied completes the set. Thanks to it, the miniatures are protected from all sides by soft foam. The game board must be transported separately. The robust MEDIUM PLUS bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the contents are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. The rule book also fits in here. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
