from **56,03 EUR**

Item no.: 378248
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

You want to transport your HeroQuest new edition well protected and discreetly without everyone knowing what you're carrying? What luck for you, because we now have this convenient MEDIUM PLUS bag. Filled with the matching Feldherr foam inserts, you can transport the contents of the basic game safely and discreetly to your next game night. The set contains two full-size and two half-size inserts for storing the hero and monster miniatures. Precisely fitting compartments ensure that your miniatures, pieces of furniture and doors won't get damaged on the way. The skeletons' scythes are just as safe from damage here as the heroes' weapons and the details of the furniture. You don't need to worry about painted models either, as they are neatly separated from each other and completely surrounded by foam in their compartments. The colours remain intact and free from scratches. You pack your game material in the foam insert with 9 compartments. This has 3 card compartments, recognisable by the finger-wide cut-outs. Insert the 3D insert into one of the compartments and fill the compartments with the foam mats supplied. You can now safely store the chests here. Use the remaining compartments for game material such as cards, dice, various tokens and chairs. Of course, the cards with protective sleeves fit into the card compartments. Finally, the foam lid provided ensures that the miniatures in the upper insert are also completely surrounded by foam. The privacy screen, character cards and personality passports, as well as the book of rules and the book of challenges can be placed on the lid or stored in the compartment at the front of the bag. The game board does not fit in the MEDIUM PLUS bag and must be transported separately. The Feldherr MEDIUM PLUS bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the miniatures are optimally protected from external influences, even when being transported by car or train. It can also be locked and unlocked with an optional padlock. In addition to the large main compartment, the bag has a small zip pocket at the front. Here you can store booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted.
