From 14 years. Not a children's toy.The players are brave adventurers who travel through an unknown land full of ruins of a lost civilisation in search of a legendary city. They find threats and allies, fame and fortune, artefacts and puzzles. To do this, the game requires a wealth of cards, dice, markers and coins. With our insert, not only do all components from the base game and expansion have their fixed place in just one box, but game set-up and table presence become faster and more effortless.NEFA consists of 20 trays, which can be removed individually and distributed on the game table as desired.Trays 1-5: Trays for the large playing cards, which can also be placed on the table as card dispensers.Trays 6-9: Trays for the small playing cards, which can also be placed on the table as card dispensers.Trays 10-13: One per player with the markers and dice of their colour.Tray 14: A tableau for storing the character figures and their fame markers. The plastic stands are removed and stored in another compartment.Tray 15: The cash box for coins (cardboard or metal) and gems.Tray 16: All adventurer markers are placed here, with separate compartments for miners and magic teachers (from the expansion), so that you can choose and place your desired composition in the bag.Box 17: Four compartments for the faction markers.Box 18: Four compartments for food and plastic stands (for the character figures).Box 19: Packing birds.Box 20: Task markers.A placeholder is also included, which you can use if you do not own the Amber Mines expansion. This will keep everything in the box in its place.Once all the boxes are in the box, place the game board, book of encounters, game boards, atlas and rulebook on top in a specific order (important because of the spiral binding of two of the books). The box can be closed flush. The box can easily be stored on edge.This item is supplied as a kit that needs to be assembled. We recommend using wood glue for this (not included in the package).
