**22,06 EUR**

Item no.: 379480  
shipping weight: 0.40 kg  
Manufacturer: Feldherr

### Product Description

The ground shakes beneath you. Suddenly the earth explodes. All around you is dust and slag. When your vision clears, all you can see is a huge mouth full of deadly drilling tools shooting towards you. In the optional buy "The Rockbreaker Expansion", you encounter one of the largest and strangest machine beasts. The Rockbreaker only moves underground and digs tunnels kilometres long with its mouth. It suddenly bursts out of them, leaving its opponents little chance to react. The practical MINI PLUS bag including matching Feldherr foam insert is available to ensure that its sensitive chewing tools are not damaged and that you can store the Rockbreaker miniature safely. This allows you to transport the miniature safely to your game night. The set consists of: - 1 Feldherr MINI PLUS bag- 1 half-size foam insert with 5 compartments for Rockbreaker and cards (HSMEVE130BO)- 2 foam lids We have packed 1 half-size foam insert in the bag for your game material and the Rockbreaker miniature. The large model has a precisely fitting compartment. Thanks to the customised cut, the Rockbreaker has a firm fit. Even if the transport takes you through endless tunnel systems and you undermine everything, the figures stay in place. The soft, fine-pored foam protects intricate details from breaking off and the colours of your painted models from scratches and paint abrasion. The normal-sized cards can be easily sorted into the free compartments. Of course, these also fit with protective covers. The 5 compartments of the HSMEVE130BO have the following dimensions: - 1 compartment: 165 mm long x 120 mm wide x 120 mm deep- 4 compartments: 71 mm long x 35 mm wide x 120 mm deep Finally, cover everything with the foam lids supplied. This ensures that your model is well protected and cannot fall out of the insert. Place the large cards between the two foam covers. The rulebook and the Encounter Tile do not fit in the bag and must be transported separately. All of this can be conveniently transported in the MINI PLUS bag. This is made of particularly hard-wearing material and ensures that the figures are protected from external influences when travelling. It can also be locked and unlocked with an optional padlock. There is additional space to store writing materials and other small items in the inner pocket with zip. A transparent compartment on the outside of the bag can hold a label on which you can write your name or the contents. Dimensions of the MINI PLUS bag: - Internal dimensions: approx. 275 mm x 172 mm x 150 mm- External dimensions: approx. 300 mm x 200 mm x 160 mm The half-size foam insert has the following dimensions: 275 mm x 172 mm x 130 mm total height (120 mm usable height + 10 mm foam base). - high-quality, fine-pored foam- chlorine-free and acid-free- Made in Germany
