Product Description

Keep the 30 miniatures and game material in "The Kickstarter Exclusives" box for Horizon Zero Dawn safe. The "Kickstarter Exclusives" box comes with a variety of miniatures, expansions and cards that were unlocked during the Kickstarter campaign for "Horizon Zero Dawn: The Board Game". In addition to new character models, you can also expect new enemies. From mercenaries and heavily armed Cultists to Aloy riding a Strider, the box is bursting with finely detailed miniatures. To make sure you don't break a leg or a weapon, we have the matching MEDIUM bag including Feldherr foam inserts for you. You can safely store and transport all the contents of the box in it. The set consists of: - 1 Feldherr MEDIUM bag- 1 full-size foam insert with 45 compartments for character models, Mercenaries and Cultists (FS035C5BO)- 1 full-size foam insert with 8 compartments for 1 Aloy mounted on Strider and playing cards (FSMEQZ050BO)- 2 foam lids We have packed 2 full-size foam mats in the bag to ensure that your miniatures always cut a good figure and do not attract negative attention due to bent and defective armaments. Whether it's an Aloy or Dervahl, each miniature has its own compartment. Thanks to the customised cut, the miniatures sit securely in place. Even if they are transported across the Tainted Lands and back again, the figures will stay in place. The soft, fine-pored foam protects intricate details from breaking off and the colours of your painted models from scratches and paint abrasion. The expansion cards and game material are also provided for. In the insert with eight compartments, you will find various card slots with finger-thick cut-outs. The cut-outs make it easier for you to remove the cards. Of course, the cards also fit into the compartments with protective sleeves. As "Aloy mounted on Strider" is slightly larger, place the miniature in one of the compartments for small cards. The compartments of the foam inserts have the following dimensions: The 45 conical compartments of the FS035C5BO have the following dimensions: - 18 compartments: 39 mm long x 25 to 30 mm wide x 25 mm deep - 9 compartments: 38 mm long x 25 to 30 mm wide x 25 mm deep - 18 compartments: 49 mm long x 25 to 30 mm wide x 25 mm deep The 8 compartments of the FSMEQZ050BO have the following dimensions: - 4 compartments: 99 mm long x 70 mm wide x 40 mm deep - 2 compartments: 128 mm long x 80 mm wide x 40 mm deep - 2 compartments: 80 mm long x 50 mm wide x 40 mm deep Finally, cover everything with the foam lids supplied. This way, the models are well protected and nothing can fall out of the inserts. Place the rulebook and the Encounter Tiles between the foam covers. The Feldherr MEDIUM bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store booklets, tiles and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
