from **18,55 EUR**

Item no.: 379597
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

Everything could have remained so beautiful. Humans, nature and the spirit world led a harmonious life on their island. But then the colonists arrived and with them came destruction. Now it's up to you, the nature spirits, to protect the island and its inhabitants from the invaders. This Feldherr organiser for your game box provides you with the necessary support. With the card and token holders, you can keep everything tidy and organised so that you can concentrate fully on your mission. The foam insert in this special "Painters Edition" takes care of protecting your miniatures. - The set fits exactly into the original board game box for the "Spirit Island" base game from Pagesus Spiele. - A foam insert offers space for all plastic miniatures (Dahans, cities, villages, explorers and wasteland markers) from the base game. - A plastic card holder serves as a tray for the playing cards. All cards also fit with sleeves. - Two plastic token holders help you to sort the ghost presences and tokens. - The island game boards, ghost boards, the invaders board and the game instructions are stored separately on the foam cover. - Available in two colour variants, grey and orange. - No assembly required. All parts are ready for immediate use. If you want to add more colour to your game and paint the miniatures, this Feldherr Organiser in the "Painter's Edition" is the perfect choice. The set comes with a foam insert with a customised compartment for each figure. The customised cut helps with sorting and also ensures that nothing slips around when you're out and about. Once you have painted your models, you can be sure that the colours will remain intact even after transport. The insert offers space for: - 36 Dahans - 20 Cities - 32 Villages - 40 Explorers - 38 Wasteland markers Now that the miniatures are taken care of, let's take care of the rest of the game material. You can store all the playing cards from the base game in the four compartments of the card holder. Of course, these also fit here with protective sleeves. Next to it you will find the two token holders. In the bottom box you sort the ghost presences (13 pieces in 4 player colours). Place the 12 reminder tokens in the four compartments above. Place the second token holder on top of this box. This holds the fear and energy tokens. To ensure that the contents remain in the box in any position during transport, it is given a lid. Once everything is in place, cover the miniatures with the foam lid and place the island game boards, ghost boards, the invader board and the game instructions on top. All the miniatures are now safely stowed away and all the game material is neatly organised. The invaders can come. The set consists of: - 1 foam inlay for miniatures (DQMEVZ035BO) - 1 foam mat, 4 mm, as a cover (DQBA004) - 1 plastic card holder for the playing cards - 1 plastic token holder for ghost presences and reminder tokens - 1 plastic token holder with lid for fear and energy tokens The foam inlay has the following dimensions: 280 mm x 215 mm x 35 mm high (25 mm usable area + 10 mm foam base) - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany The card and token holders have the following dimensions: - Token holder 1: 105 mm x 65 mm x 22 mm high - Token holder 2: 125 mm x 105 mm x 17.5 mm height - Card holder: 196 mm x 65 mm x 70 mm height - thermoplastic - no assembly required - ready to play - 3D printed in Germany As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.
