Product Description

Build a Tilt-A-Whirl music box with your own hands and enjoy the amazing experience with the spinning teacups. ROKR Tilt-A-Whirl EA04 is a DIY music box 3D wooden puzzle kit from the Magic Amusement Park series. The design is based on the classic spinning teacups of today's great amusement parks, with the exterior decoration of the 18th century gypsy circus tent presenting the amazing charm of time and space. The overall shape of this Tilt-A-Whirl 3D wooden puzzle kit resembles a beautiful stage wrapped by two red and blue curtains. Behind the classic atmosphere of the semi-rotating staircase, the tall revolving chassis stands at an angle. When switched on, the huge chassis rotates and the five teacups on the chassis also rotate regularly between the beautiful running lights. With the "Wind and Moon" music playing slowly, this DIY musical box set looks like a living stage play. Challenge yourself by putting all the pieces together and building this wooden Tilt-A-Whirl music box puzzle set with your own hands! Notes: Due to customs regulations, wax and battery (AAA*3) may not be included in the package. Wax: You can use regular candles, crayons, beeswax, etc.

Details- 280 parts- Assembly time: 5.5 hours- Difficulty level: 4- Age: 14+- With LED Technical data- Model size: H: 7.28? (18.5 cm) x W: 7.76? (19.7 cm) x D: 8.82? (22.4 cm)
