ORG001 - Organiser + foam set for Disney Villainous - board game box

from **18,88 EUR**

Item no.: 379576
 shipping weight: 0.50 kg
 Manufacturer: Feldherr

Product Description

Many people think that being a professional villain is easy. But the board game "Disney Villainous" proves that being a villain is much more than just grinning maliciously, ordering henchmen around and ordering "Off with her head!". Now you can finally find out how well you would do as a pirate captain in Neverland or as the Queen of Hearts. And because we also have a soft spot for villains, we support you in the fight against good with this Feldherr organiser, suitable for your board game box. The card and token holders keep things tidy and organised so that you can concentrate fully on your intrigues. The foam insert takes care of the well-being of your villains. - The set fits exactly into the original board game box for the "Disney Villainous" basic game from Ravensburger. - A foam insert offers space for all 6 villain playing pieces of the basic game. - Two card holders and a token holder made of plastic help you to sort the playing cards, villain handbooks and chips. All cards also fit with sleeves. - A second plastic token holder serves as a tray for the power chips. This replaces the cauldron from the original set. - The player boards and the game instructions are stored separately. - No assembly required. All parts are ready for immediate use. So that Captain Hook, Jafar, Maleficent, Prince John, the Queen of Hearts and Ursula can take a break after their exhausting villainous existence, the set comes with a foam insert that has a customised compartment for each figure. The customised cut helps with sorting and also ensures that nothing slips around when travelling. The delicate parts of the figures are therefore optimally protected from damage. Once you have painted your models, you can be sure that the colours are still intact even after transport. Once the miniatures have been taken care of, let's take care of the game material. The two card holders are each divided into 3 compartments. This means that each villain has their own compartment for sorting the villain and destiny card sets. Of course, these also fit here with protective sleeves. In this set, we replace the cauldron with the power chips with a robust plastic token holder. This serves to stabilise the foam insert in the board game box. Just like the original cauldron, you place the token holder in the centre of the table during the game to store the power chips. The second token holder fills the last empty space in this package. Four compartments provide space for the 3 castle chips and the fate chip. Place the six game aids and the villain manuals on top. Once everything is in place, cover the miniatures with the foam cover and place the player boards and the game instructions on top. All the miniatures are now safely stowed away and all the game material is neatly organised. You are now prepared for any heroic adversity. The set consists of: - 1 foam inlay for villain miniatures (EXMEZB035) - 1 foam mat, 10 mm, as a base (EXBA010) - 1 foam mat, 4 mm, as a cover (EXBA004) - 2 card holders for villain and destiny card sets - 1 token holder for castle chips, destiny chip, play aids and manuals - 1 token holder for power chips The foam inlay has the dimensions: 160 mm x 160 mm x 35 mm high (+ 10 mm foam base and 4 mm top) - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany The card and token holders have the following dimensions: - Token holder for power chips: 161 mm x 100 mm x 34 mm high - Token holder 2: 161 mm x 100 mm x 26 mm height - Card holder: 113 (143) mm x 98 mm x 62 mm height - thermoplastic - no assembly required - ready to play - 3D printed in Germany As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.
