from **100,13 EUR**

Item no.: 379530
shipping weight: 0.50 kg
Manufacturer: Feldherr

Product Description

Countless factions, countless spaceships, crates of game material. And mechs to boot. Twilight Imperium and the "Prophecy of Kings" expansion are not stingy with content. Thanks to the Feldherr Organiser, you won't despair at the amount of game elements, but you can subjugate the game material and stow the contents of the basic game and the expansion close together in the original game box. - The set fits exactly into the original base game box of the 4th edition of "Twilight Imperium". - Provides space for all plastic miniatures and the complete game material from the 4th edition base game and the "Prophecy of Kings" expansion. - The 46 tokens and 20 card holders can be removed individually. - Supports premium card sleeves (max. outer dimensions 68 x 46 mm). - Rulebook, rule references, expansion rules, galactic chronicles, victory point track, faction and command sheets can be stored on the foam lid. - The lid of the box protrudes approx. 4 cm. - Transport and tilt-proof - vertical storage possible - No assembly required! Ready to use! While you subjugate the galaxy and ensure peace and security, we'll keep your game box organised. The token holders and card holders take care of the individual elements of your game material. Thanks to the clear structure of the organiser, setting up the game and tidying up after the game is considerably faster. You can invest the time saved directly in the game. To start the game quickly, take the trays out of the box and spread them out on the table. This way you have everything to hand and where you need it. - 12 small plastic card holders, each with 3 compartments for playing cards such as technology cards, mech unit cards, evaluation technology cards for units. - 3 small plastic card holders with one compartment for playing cards such as action cards. - 1 small plastic card holder with 3 compartments for playing cards such as agenda cards, contract cards. - 2 large plastic card holders with 3 compartments for playing cards such as agenda cards, contract cards. - 2 large plastic card holders, each with 3 compartments for playing cards such as planet cards, mission cards, relic cards, contract cards, leader cards, mech unit cards, ability cards for legendary planets. - 2 flat plastic card holders with 2 compartments for strategy cards + assimilator markers. - 4 large plastic token holders with 5 compartments each for system boards, dice, trade goods and mass product markers (double-sided), infantry markers, fighter markers & other tokens and markers. Place the spiral-shaped Creuss system board on top. - 24 flat token holders made of plastic, each with 2 compartments for game material such as command markers, control markers and a recess for cards. - 8 flat token holders made of plastic, each with 10 compartments for spaceships, sorted by player colour. - 8 token holders made of plastic as inserts, each with 1 compartment for plastic mech units, sorted by player colour. - 2 token holders made of plastic, each with 1 compartment for mech units, sorted by player colour. - 2 plastic token holders, each with 4 compartments for expansion game material such as Mirage planet markers, Destroyed planet markers, Reinforcement markers, Ion storm markers, Dimensional tear markers, Gamma wormhole markers, UI sleeper markers, Wild space markers. All cards also fit in the organiser with protective sleeves (max. outer dimensions 68 x 46 mm). Once everything is packed, cover the trays with the foam lids provided. This prevents the tokens from falling out of the compartments. The rulebook, rule references, expansion rules, galactic chronicles, victory point track, faction and command sheets are stored on the foam cover. - high-quality, fine-pored foam- chlorine-free and acid-free- Made in Germany. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic- no assembly required - ready to play- 3D printed in Germany
