### Product Description

Organiser and protection in one - The Painter's Edition with foam inserts, token and card holders for your board game box. For neat and safe storage of miniatures and game material. Leave your home planet, venture into the darkness of the cosmos and reach for the stars. In the 4th edition of Twilight Imperium, you will try to create a star empire for eternity. The matching Feldherr Organiser is available in the Painter's Edition so that you can store game material neatly and miniatures safely. The token and card holders provide the necessary order, while the foam inserts made of soft foam protect painted and unpainted figures from ugly scratches. The organiser set offers space for all the contents of the "Twilight Imperium" 4th edition base game. The set fits exactly into the original board game box of the 4th edition of "Twilight Imperium". Three foam inserts offer space for all miniatures of the base game. The 19 token and 11 card trays are made of soft foam. The 19 token and 11 card holders made of plastic help you sort your game material and can be removed individually. The rulebook, rule references, lore compendium, victory point track, faction and command sheets can be stored on the foam lid. The lid of the board game box protrudes approx. 6 to 7 cm. Transport and tilt-proof - vertical storage possible - No assembly required! Ready to use! The set contains three foam inserts to protect your miniatures. Each foam insert has 122 compartments individually tailored to the miniatures to ensure that each figure is safely packed. Two factions fit on one insert, clearly separated from each other. From the war suns to the battleships to the infantry - every plastic figure is securely packed in foam all round. Precisely fitting compartments ensure that the miniatures do not slide around or bump into each other, even when travelling. This not only protects delicate parts from damage, but also protects the colours of painted figures from abrasion and scratches. Sort the small game material and cards into the token and card holders. Place the three foam inserts on the plastic trays of the organiser. All cards also fit in the protective cover (max. outer dimensions 68 x 46 mm).
