ORG056 - Organiser + foam set for Etherfields - basic game box

from **52,27 EUR**

Item no.: 379630
 shipping weight: 0.30 kg
 Manufacturer: Feldherr

Product Description

With Etherfields, Awaken Realms takes you into a surreal, bizarre dream world. You will encounter disturbing creatures as the boundaries between dream and reality slowly blur. The Kickstarter campaign for Etherfields delivered a lot of game for your money. To prevent the storage from becoming nightmarish, we support you with the matching Feldherr organiser set. The set offers space for all miniatures and the entire game material from: - Etherfields - Basic Game- 5th Player Expansion- Thorn Knight Optional Buy- all unlocked stretch goals from Wave 1. The contents of "Creatures of Etherfields" do not fit into this organiser set. - The organiser fits into the original game box. The organiser fits into the original board game box of the Etherfields base game by Awaken Realms. - It consists of a foam insert, six token holders and ten card holders made of plastic, as well as four foam mats and a foam lid. - The foam insert made of soft, fine-pored foam reliably protects the miniatures from damage. - Token and card holders can be removed individually. The token holders can be stacked on top of each other. - All game cards also fit with protective sleeves. - "Wisdom card holder", "Dreamworld Map tiles holder", board, "Secret Scripts book", game manual, "Dream Gate tiles envelopes" are stored separately in the box. - The lid of the board game box protrudes approx. 7 cm. - For more stability during storage and transport. The Flex Cross Band size XL, which is also included in the set, provides more stability during storage and transport. - transport and tilt-proof - vertical storage possible. - "Ready to Use" - no assembly required. While you dive deeper and deeper into the surreal dream worlds, we take care of the contents and organisation of your box. You can store your miniatures in the foam insert and the game material can be clearly organised using the token and card holders. This saves you time when setting up the game and allows you to put the time you save into playing. The main components of the set at a glance: 1 foam insert for miniatures, Dreamer boards, Lucid Dreamer boards and mask tokens: - The large model of Belshazar is given a miniature-specific compartment. Other miniatures, such as Dreamer or Thorn Knight, are given custom-fit compartments. Thanks to this, the miniatures have a secure fit. Even when being transported through your worst nightmares, they won't slip and will stay in place. - The soft, fine-pored foam reliably protects your figures from damage. You need not fear scratches and chipped paint on your painted figures or broken details on your miniatures. - The insert also has a large, precisely cut compartment for the Dreamer Boards and the Lucid Dreamer Boards. You can also store the mask tokens here. 6 token holders with five compartments made of robust plastic for your game material: - Tokens (power tokens, sign tokens), markers (glass and plastic markers) and other game material (dice, plastic stands etc.) can be sorted as you wish. - You can store the blank token in the square recess in the centre. - The token holders are stackable and can be removed individually. They can be placed on the table for the game. This means you have everything clearly organised and always to hand. 8 plastic card holders, each with a compartment for standard cards (Core Suffering cards, Belshazar Secret Wisdom cards): - Each card holder can hold 280 cards (or 140 cards with a protective cover). If you use card dividers to sort your cards, the maximum number of cards is reduced. - Cards fit into sleeves with a maximum size of 92 mm high x 66 mm. 2 plastic card holders, each with a compartment for Big Cards (Core Secret cards - Locations, Belshazar Other Effect cards): - Each card holder can hold 320 cards (or 160 cards with protective sleeves). You can also sort the cards here using card dividers. The maximum number of cards is reduced accordingly. - Cards fit into sleeves with a maximum size of 113 mm high x 113 mm. A thick foam mat improves stability in the box and prevents the card holders from sliding around. Three thin foam mats compensate for height differences within the box. Place the supplied foam lid on the insert. This ensures that none of your pieces bump into the lid of the board game box during transport. "Wisdom card holder", "Dreamworld Map tiles holder", board, "Secret Scripts book", game manual, "Dream Gate tiles envelopes" are placed on the lid. As the lid of the board game box protrudes significantly, a Feldherr Flex Cross Band blue (size XL) has also been included with the set. This ensures a stable, transportable fit of the lid despite the overhang. - high-quality, fine-pored foam- chlorine-free and acid-free- Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic- no assembly required - ready to play- 3D printed in Germany
