Thanks to the precise cut, the miniatures do not slip and cannot bump into each other during transport. Surrounded by soft foam, the delicate parts of the miniature remain protected from damage. The colours of your models are also protected from scratches and abrasion. There are suitable compartments in the inserts for ship bases, retaining fins, command and thrust wheels, as well as ship cards and markers. There is enough space here for sorting additional cards, dice, markers and accessories. The assortment box has 5 elongated compartments. These can be further subdivided using the 12 dividers supplied. This allows you to divide up to 17 compartments for storing your game materials. When the dividers are not inserted, the longest compartment in the centre is 260 mm long x 46 mm wide x 35 mm deep. Finally, the foam lid supplied ensures that your fleet is securely packed all round and survives transport to the gaming table undamaged.
