Product Description

Keep the 14 miniatures and the game material of "The Sacred Lands Expansion" safe. All-Mother watches over the people of the Sacred Lands. The Nora tribe has blossomed under her protective gaze. But dangers also await you within the valley. "The Sacred Lands Expansion" expands the world of Horizon Zero Dawn and lets you explore the sacred lands of the Nora. The fauna is expanded with numerous mechanical beasts such as the Snapmaw or the Red Eye Watcher. To ensure that the miniatures arrive at the next game evening without material damage, we have the practical MEDIUM PLUS bag including Feldherr foam inserts for you. This allows you to transport the 14 miniatures and the game material of the expansion neatly and well protected. The set consists of: - 1 Feldherr MEDIUM PLUS bag - 1 full-size foam insert with 4 compartments for Snapmaw and Bellowback (FSMELX090BO) - 2 half-size foam inserts with 7 compartments for cards, game material and miniatures such as Nora Scavenger, Red Eye Watcher and Red Eye Watcher.e.g. Nora Scavenger, Nora Trapper, Longlegs, Redeye Watcher and Stalker (HSMEQO050BO) - 1 foam cover We have included 1 full-size and 2 half-size foam inserts in the set for your game material and miniatures. Each Hunter and, of course, each mechanical beast has its own customised compartment, so whether it's a Nora Trapper or a giant Bellowback, your figures will stay in place during transport. They won't slide around and, surrounded by soft foam, are optimally protected from damage. The fangs of the Snapmaws remain just as undamaged as the equipment of your Nora Scavenger. If you paint your figures, you can also be sure that the colours are protected from scratches and abrasion. Individual compartments for cards, dice and tokens help you to keep track of your game material at all times. Special card compartments with finger-thick cut-outs are provided for the cards. These make it easier for you to remove the individual stacks. This means you always have your game material quickly to hand. The time and nerves you save on setting up the game can be invested in the monster hunt instead. The compartments of the foam inserts have the following sizes: Each of the 4 compartments of the FSMELX090BO is 142 mm long x 108 mm wide x 80 mm deep. The 7 compartments of the HSMEQO050BO have the following dimensions: - 3 compartments: 95 mm long x 68 mm wide x 40 mm deep - 2 compartments: approx. 48 mm long x 29 mm wide x 40 mm deep Finally, cover everything with the foam lid supplied. This ensures that the models are well protected and nothing can fall out of the inserts. Place the rulebook and the Encounter Tiles on the foam cover. The Feldherr MEDIUM PLUS bag is made of particularly hard-wearing material. Padded side panels and a reinforced base also ensure that the miniatures are optimally protected from external influences, even when being transported by car or train. It can also be locked and unlocked with an optional padlock. In addition to the large main compartment, the bag has a small zip pocket at the front. Here you can store booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
