From 14 years. Not a children's toy.A small group of hidden rebels take on the military might of the Galactic Empire. The fate of the galaxy is at stake! This epic conflict brings literally hundreds of spaceship miniatures to the table, as well as various decks of cards, leaders, all kinds of markers and dice. Our insert has customised trays for all components from the base game and expansion, giving both factions full control over their forces.REBL consists of 15 trays that can be removed individually and placed anywhere on the gaming table.Trays 1-3: The Imperial miniatures are housed in 2 trays, one for the base game and one for the expansion. There is also an extra box for the Death Stars.Boxes 4-5: The Rebel miniatures are divided into 2 boxes, one for the base game and one for the expansion.Boxes 6-8: All cards are divided into 3 boxes: Empire, Rebels and general.Trays 9-10: There is one Imperial and one Rebel box for the leaders.Trays 11-12: One for the loyalty markers for each faction.Trays 13-14: All general markers such as damage and condition rings go in here.Tray 15: The dice are stored in the last tray.When all the trays are placed in the box, they are covered with the game boards and rulebooks. As the space in the box is not fully utilised, there is a placeholder at the top that allows the lid to be closed flush and everything is held firmly in place, even if the box is stored upright.This item is supplied as a kit that needs to be assembled. We recommend using wood glue for this (not included in the package).
