From 14 years. Not a children's toy. So that the end of the world doesn't start as soon as the game is unpacked, our RAGE insert jumps into the breach and sorts clans, cards and markers into no less than 20 individual boxes, which can all be removed individually and distributed on the gaming table as desired. Boxes 1-6: One per clan. Holds leaders, warriors, mystics and the ship. Trays 7-12: One for each player with his/her clan tokens and rest tokens. Tray 13: Unused figure bases, starting player and doom tokens. Tray 14: Plunder tokens. Tray 15: Gods and mystics cards. Tray 16: For hanging the 3 alternative KS monsters. If not available, simply leave them out. Tray 17: Ragnarök tokens. Tray 18: Age cards. Tray 19: God figures. Tray 20: Small monster figures. The large monster figures are placed in the box using a divider that can remain in the box permanently. Once all the trays have been placed in the box, there is room to place the game board and the clan, age and whale sheets with the rulebook on top. The box lid closes flush. The box can easily be stored on edge. This item is supplied as a kit that needs to be assembled. We recommend using wood glue for this (not included in the package).
