Product Description

It has become dark in the world, the great beacons have gone out and the cities have been abandoned. But light is life and so the gnomes set out to prove to the Guardians of Light that the inhabitants of the world deserve the warm glow of the fires. We have the matching Feldherr Organiser for you so that you are not left in the dark and your board game box is a beacon of order. You can use it to keep your game material neatly organised in the Bonfire base game box and you can also integrate some of the inserts directly into the game. This way you can keep an overview in the box and on the game table. - Feldherr Organiser suitable for the original Bonfire base game box. - The set offers space for all the contents of the base game. - Some inserts, such as the figure holders with the Guardians of Light, can be placed directly on the game board. - Each player receives their own tray with the required starting game material. These are sorted by colour. - There is a separate tray for the playing cards. You can also store the action overviews in the recess here. - All cards also fit in the card holder with protective sleeves (max. outer dimensions: 47 x 72 mm). - You can store the large bonfire and its replacement assembled in the matching plastic insert. - Place rulebooks, personal tableaus ("cities") and the game board on the organiser. - Transport and tilt-proof - vertical storage possible - Ready to use - no assembly required. While you provide adequate lighting, we take care of the contents of your board game box. 15 inserts made of robust plastic ensure that your game material is neatly organised and that each component has a suitable place. This means you always know where the individual pieces are, even if the lights go out. The clear structure of the organiser saves you time-consuming pre-sorting and you can start playing straight away. Take the individually removable trays out of the game box and spread them out on the game table. Individual inserts such as the figure holders can be placed directly on the game board. Each player also receives a player tray with the components needed to start the game. This allows each player to keep an eye on their game material. After the game, put the filled trays back into the basic game box. Everything is neatly stowed away and you are ready for the next time. The set consists of: - 1 plastic card holder with three compartments for playing cards such as gnomes, overview cards and tom cards + tray for action overviews - 1 plastic token holder with one compartment for portal tokens - 2 plastic token holders, each with eight compartments for action markers, attachments, resources, council novices and countdown tokens - 1 plastic fire tray with two compartments for large bonfire and large bonfire replacement. - 1 plastic token holder with one compartment for portal tokens - 1 plastic fire tray with two compartments for large bonfire and large bonfire replacement. - 1 plastic token holder with one compartment for portal tokens. 1 plastic token holder with one compartment for round task tokens - 1 plastic token holder with three compartments for tokens such as path tokens - 4 plastic player trays with five compartments for fate tokens, 0/50 markers, Guardians, novices, scoring markers, offering trays, ships, sorted by player colour + recess for starting spaces for Guardians - 4 plastic figure holders, each with a compartment for Guardians of Light. The organiser has the following dimensions: 310 mm long x 220 mm wide x 50 mm high. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany. As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted.
