Product Description

Compatible with Terraforming Mars and the expansions Hellas & Elysium and Next Stop: Venus. Can be combined with TEFO-PLYM (5 wooden overlays for the player boards)- 18 trays removable- Lid closes flush- Vertical storage possible- Supports premium card sleeves (max. outer dimensions 67 x 97 mm) - Total size requires wood glue - Assembly requires wood glue - Hobby product. outer dimensions 67 x 97 mm)- Overall size after assembly: 286 x 286 x 68 mm- Assembly requires wood glue Hobby product. For ages 14 and up. Not a children's toy. To make Mars habitable, you have to bring almost everything you need from Earth (apart from the odd asteroid). Our mission is to manage the many player and resource markers, tiles and cards and keep the colony tidy. TEFO consists of 18 trays, which can be removed individually and placed on the game table as desired. Trays 1-4: Project cards Tray 5: Group cards Trays 6-11: One per player with the tokens in his/her colour. One box is reserved for the white markers. Boxes 12 and 13: Resource markers in two identical boxes so that they can be distributed as banks on the table. Boxes 14 and 15: Green space and city tiles Box 16: Starting player markers Box 17: Ocean tiles Box 18: Special tiles Optionally, two placeholders can be built. One takes the place of TEFO-PLYM if you do not buy the overlays, the other blocks the space occupied by the Hellas&Elysium game board if you do not own it. When all the trays are placed in the box, there is enough space to place the game board(s), player boards and the rulebook on top. The box can be closed flush. The box can easily be stored on edge. This item is supplied as a kit that needs to be assembled. We recommend using wood glue for this (not included in the package).
