Item no.: 379936
shipping weight: 1.00 kg
Manufacturer: Feldherr

Product Description

After the death of Robert Baratheon in 298 AD, the tense situation in Westeros escalates and the War of the Five Kings ensues. With the miniatures game "A Song of Ice & Fire", the fate of Westeros is in your hands. Based on the books and personally approved by George R.R. Martin, the tabletop game shines in particular with its detailed miniatures of the characters and troops from the epic fantasy saga. We have designed this transporter set for you to keep your collection safe and organised. Everything is compactly stored in one place and easy to transport. The set consists of:- 1 transporter bag- 4 storage boxes FSLB150- 2 full-size foam inlays with 25 compartments each for miniatures (FSLQ050BO)- 1 full-size foam inlay with 32 compartments for miniatures (FSMEDS060BO)- 1 full-size foam inlay with 32 compartments for miniatures (FSMEDS040BO)- 1 full-size foam inlay with 16 compartments for miniatures (FSMEFP050BO)- 1 half-size foam inlay for The Iron Throne (HSMECR135BO)- 5 half-size foam inlays with 12 compartments each for miniatures (HSMECP045BO)- 4 half-size foam inserts with 12 compartments each for miniatures (HSMECP040BO)- 1 half-size foam insert with 15 compartments for miniatures (HSMEDO065BO)- 1 half-size foam insert with 3 compartments for game material (HSMEHJ050BO)- 1 full-size levelling mat (10 mm high)- 1 half-size levelling mat (10 mm high)- 1 half-size levelling mat (5 mm high)- 4 full-size foam covers7 custom-fit foam inserts provide space for all 103 miniatures in the "Stark vs. Lannister" starter set. From Tyrion Lannister, to the Outriders of the Starks, to the "Mountain" Ser Gregor Clegane, every miniature has the right compartment. A foam mat is customised for the throne. The large compartment was customised for the Kickstarter exclusive miniature of the Iron Throne. There is an extra compartment for the platform on which the throne stands. The other two compartments can be filled with Mounted Brynden Tully and The Mountain That Rides, for example. Wrapped in soft foam, the detailed miniatures are optimally protected from damage. The swords and halberds remain sharp and the Lannisters' and Starks' banners still wave proudly in the wind, even after rough transport routes. If you paint your miniatures, you no longer need to worry about them sliding around or bumping into each other and ruining hours of painstaking painting. The colours remain intact and free from scratches. A customised insert is included for the game material. The Infantry Movement Trays, the Cavalry Movement Tray and Solo Movement Trays can be stored here. The top two compartments are for storing the game cards, dice and tokens. This means that the game accessories are compactly stored in one place. No tokens or dice get lost and the newfound organisation saves you time and nerves when setting up the game. Other foam inserts provide shelter for the Kickstarter exclusive figures, among other things. Gregor Clegane, Greatjon Umber, The High Seneschal or the alternative miniatures for the Dreadfort Captain and Robb Stark can all be stored in perfectly fitting compartments. The Deluxe Activation Tokens, in the form of the plastic banners, can also be stored here. The three storage boxes are used to store all the miniatures and game material for the Kickstarter pledge "Hand of the King". There are also free compartments for additional miniatures, e.g. from the unit boxes. And so that you don't have to save on the units due to lack of space, you will receive a storage box M filled with the matching mats with the package. 2 full-size and 2 half-size foam mats are ideal for the miniatures in the unit boxes. This allows you to expand your armies individually and you have all the characters and troops you need for the game stored compactly and ready to travel in the transporter. The storage boxes made of coated, double-walled cardboard are not only lightweight, but also particularly robust and therefore ideal for storing foam mats and miniatures safely and protected from dust. They are also easy to transport thanks to the plastic carrying handle. Dimensions of storage box M:- Internal dimensions: 345 mm x 275 mm x 150 mm height- The external dimensions are slightly larger. Our transporter is made of lightweight but durable fabric. In addition to the large main compartment, the bag has a small side compartment, e.g. for a rulebook or playmats. It can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap. Dimensions of the Transporter bag:- Internal dimensions: approx. 620 mm x 400 mm x 340 mm height- External dimensions: approx. 635 mm x 410 mm x 350 mm height- Front compartment: 230 mm wide x 210 mm high- High-quality, fine-pored foam - Made in Germany- Chlorine-free and acid-free
