Product Description

Compatible with Twilight Imperium 4.- 38 boxes removable- Lid closes flush- Supports premium card sleeves (max. outer dimensions 68 x 46 mm)- Overall size after assembly: 430 x 286 x 125 mm- Assembly requires wood glueHobby product. From 14 years. Not a children's toy.It's an endeavour of cosmic proportions - reaching for the stars, spreading your people to new planets and growing your race through trade, politics and military to create a star empire for eternity. In Twilight Imperium 4, the ambitions are high; not only is there enough game material in the huge box to recreate a part of the galaxy, but you can also choose between 17 different factions. Hundreds of spaceship miniatures and hundreds of cards need to be neatly stored. Our insert comes to the rescue with a new record number of customised trays for all game components and ensures perfect order in space.TIMP consists of 38 trays that can be removed individually.Trays 1-6: One tray each for the fleet of one player colour. Each ship type has its own compartment.Trays 7-23: One tray each for the control & command markers and the cards of one of the 17 factions.Trays 24-26: One box each for the fighter, infantry and merchandise markers.Trays 27-32: One box each for the cards of one player colour.Tray 33: For the planet cardsTray 34: For the order cardsTrays 35-36: For the action and agenda cards, incl. compartments for discard piles. Trays for the discard piles.Tray 37: For the strategy cards, dice and spokesman/guardian markersTray 38: A holder for the system boards, sorted by type.When all trays are placed in the box, there is some space left at the top. The 3 instruction booklets are placed here on the right or left and the faction and command sheets, the victory point track and the special Creuss system board are placed on the other side. The box can be closed flush. Storage on edge is theoretically possible, but we do not recommend it due to the size of the box.This item is supplied as a kit that needs to be assembled. We recommend using wood glue for this (not included in the package).
