Product Description

In 1926, the gates to other worlds have opened. Ancient gods seek the world itself and they are not alone. Cults have sprung up everywhere, destabilising government systems and plunging entire countries into chaos. It is up to you to uncover the cults, deny the gods access to our spheres and prevent the end of the world and the collapse of society. To support you in your mission, we have put together the right Feldherr Organiser for you. It keeps your box tidy and helps you to organise all your game materials clearly. The organiser fits into the original board game box and offers space for all the game materials from the "Eldritch Horror" base game. The set consists of five token holders and four plastic card holders. All trays can be removed individually. The four identical token holders can be stacked on top of each other. Token holder and card holder are designed so that the game materials can be sorted according to your preferences. All cards also fit with protective sleeves (max. outer dimensions standard: 95 mm x 68 mm and American Mini: 67 mm x 44 mm). Game board and encyclopaedia are stored separately in the box. safe to transport and tip over - vertical storage possible - "Ready to Use" - no assembly required While the world slowly goes to the dogs, we take care of your game material. So you can concentrate fully on finding out what's behind the global chaos. The token and card holders help to ensure that your game material is always clearly organised. This saves you time, as tedious pre-sorting is a thing of the past. Thanks to the generic compartments in the trays, you decide how best to organise the tokens and cards. For a quick start to the game, simply spread the trays out on the table and you can get started with your friends.
