### Product Description

After the zombie apocalypse in modern times and the fantasy zombicide in the Dark Ages, it's off to the future with "Zombicide: Invader". But no matter when, no matter where and no matter what your bloodthirsty enemies are called, the goal always remains the same: Survival! Of course, this Zombicide season we're also providing you with everything you need to store your collection neatly and safely. A transporter with foam-filled storage box DS and storage box FSLB250, ensure that the heads only roll on PK-L7, not on the way there. The complete package offers space for all figures and the entire game material from the "Soldier Pledge", as well as for the optional buys of the Zombicide: Invader Kickstarter campaign. The set consists of:- 1 Feldherr transporter bag- 1 storage box DSLB310- 1 storage box FSLB250- 3 full-size foam inserts for miniatures, accessories and dashboards (FSMEQV050BO)- 2 full-size foam inserts with 26 compartments each for miniatures (FSJQ050BO)- 2 full-size foam inserts with 34 compartments each for miniatures (FSBR040BO)- 2 full-size foam inserts for tiles, tokens and cards (FS060I031BO)- 1 full-size foam insert with 25 compartments for miniatures (FSLQ040BO)- 1 full-size foam insert with 32 compartments for miniatures (FSMEDS040BO)- 1 full-size foam insert for miniatures and accessories (FSFG055BO)- 1 full-size foam insert with 36 compartments for miniatures (FS035BO)- 5 half-size foam inserts with 12 compartments each for miniatures and accessories (HSCW075BO)- 2 half-size foam inserts with 16 compartments each for miniatures (HS035BO)- 1 half-size foam mat, 4 mm, as height compensation- 2 full-size foam covers- 1 double-size foam cover

The more than 320 miniatures, together with the complete game material, are excellently protected and clearly organised on a total of 20 foam inserts. Each worker, berserker, hunter, foul monster and, of course, each survivor has its own customised compartment. This means that your miniatures stay in place during transport, do not slide around and, surrounded by soft foam, are optimally protected from damage. The tentacles and claws of the Xenos remain intact here, as do the weapons of your heroes. If you paint your figures, you can also be sure that the colours are protected from scratches and abrasion. Individual inserts with special compartments for cards, dice, tiles and tokens help you to keep track of your game material at all times. Trackers, counters and equipment cards are therefore quickly to hand and the time and nerves you save on setting up the game can be invested in the zombie hunt instead.
