The 13 custom-fit foam inserts ensure that all your hero and monster miniatures are in good hands. From the Shadow Dragons to the Harpies to the Cave Spiders - there is a suitable compartment for every miniature. A customised mat provides shelter for the Overlord's allies. Valyndra, The Rat King, Belthir, Skarn, Sinistrael, Bol'Goreth and Queen Ariad have their own customised compartments here. This ensures that the delicate parts of the plastic figures, such as the wings of the Lindworm Queen, are optimally protected from damage. Anyone who has spent hours priming, painting, washing and brushing their half-dragon warriors and a horde of goblin archers will know how important it is to store them correctly. Storing the figures individually in precisely fitting compartments prevents them from sliding around and bumping into each other. This protects the colours from abrasion and chipping. The storage boxes made of coated, double-wall cardboard are not only lightweight but also robust, making them ideal for storage and transport. The whole thing is rounded off by the high-quality transporter bag, including carrying strap, which makes transporting easier. Our transporter bag is made from lightweight but durable fabric. In addition to the large main compartment, the bag has a small side compartment. It can be lifted with two carrying handles or shouldered comfortably with the sturdy carrying strap. This means your Descent collection is safely packed and can be transported to the next game comfortably and optimally protected at any time.
