Product Description

Night after night, you gain access to the gloomy manor houses of Arkham. Night after night, you will encounter unspeakable horrors that will make your blood run cold. Time and time again, you are torn out of the game because you are looking for a certain token or card. Until now. With the matching Feldherr Organiser for the basic game box of "Mansions of Madness", this will no longer happen to you. All the figures, tiles, cards and other game material can be neatly and clearly organised here. So you can find the right game component at the right time and stay on the trail of evil. - The organiser set offers space for all game materials and miniatures from the "Mansions of Madness: Second Edition" base game. - Fits into the original board game box of the "Mansions of Madness: Second Edition" base game. - The miniatures of the game are stored in seven matching plastic trays. - Three plastic card holders are available for your small playing cards and large-format investigator cards. - All playing cards fit into the card holders even with protective sleeves (max. external dimensions: normal-sized cards 45 mm x 69 mm and large-sized cards 122 mm x 86 mm). - All components of the organiser can be removed individually. - Reference manual, "Learn to Play" guide and game board parts can be stored on the organiser. - Transport and tilt-proof - vertical storage possible - "Ready to Use" - no assembly required. While you concentrate fully on your psychic investigations, we take care of the organisation in your box. Thanks to the seven figure trays, the two token holders and three card holders, there are no more nasty surprises waiting for you, just a well-organised basic game box. The clear structure of the organiser helps you to keep track of all the game components and you always have all the elements to hand. As there is no need for time-consuming pre-sorting, you can start playing more quickly. This saves you valuable time that you can invest in your investigations. For a quick start to the game, simply spread the trays out on the table and you can get started straight away. The set consists of: - 1 plastic card holder with 2 compartments for large cards (investigator cards). - 2 plastic card holders, each with 3 compartments for small playing cards (horror cards, damage cards, condition cards and spell cards, as well as cards for simple and special items). - 2 plastic token holders, each with 4 compartments for game material (dice, ID markers, search/interaction markers, fire/darkness markers, exploration/vision markers, person markers, secret passage markers, barricade markers, wall and door markers, as well as clue and monster markers). - 4 plastic trays with 8 compartments each for small miniatures with base (Investigators, Cultists, Priests, Hybrid, Ghost, Child of Dagon). - 2 plastic trays with 2 compartments each for medium-sized miniatures with base (Deep One, Riot, Hunting Horror). - 1 plastic tray with 2 compartments for large miniatures with base (Star Spawn). - 1 plastic placeholder for hanging in one of the figure trays for medium-sized miniatures. Prevents the individual trays from slipping during transport. Once you have clearly organised all the cards, figures, dice and markers, place the game board pieces on the organiser. The included placeholder closes the gap between the tray for medium-sized miniatures and the tray with the large Star Spawn. This gives the organiser set a stable fit in the base game box and the individual inserts remain in place even during bumpy transport. Finally, cover everything with the foam lid. This prevents anything from falling out of the trays and hitting the lid of the box. Place the reference manual and the "Learn to Play" guide on the foam lid. - High-quality, fine-pored foam - Made in Germany - Chlorine-free and acid-free. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic - 3D printed in Germany
