from **28,51 EUR**

Item no.: 379566
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

Imagine if all the legends about monsters and mythical creatures were true and terrorised the Middle Ages. That would be a truly dark age. In 'Time of Legends: Destinies', all of this becomes a gruesome reality. Set in the 15th century, you go into battle against terrible monsters. The basic game box comes with beautifully designed game materials and fantastically modelled miniatures. We have the ideal mix of organiser and foam set for you so that you always have an overview and your figures are not damaged. Everything can be stored compactly in the basic game box and you can transport your game to the next game night without any worries. - The organiser incl. foam set offers space for all the game material and all the miniatures from the "Time of Legends: Destinies" basic game. - The organiser fits into the original basic game box of "Time of Legends: Destinies". - The three foam inserts made of soft, fine-pored foam reliably protect the miniatures from damage. - The card holders can be removed individually. The card holders can be removed individually and not only help you to store your playing cards neatly, but also to organise your game material clearly. - Normal-sized playing cards also fit with protective sleeves. - The rulebook and player boards are stored separately in the box. - The lid of the board game box protrudes approx. 1 cm. - Transport and tilt-proof - vertical storage possible - "Ready to Use" - no assembly required. While you shake hands with Joan of Arc, hunt monsters and experience the most exciting adventures, we take care of your miniatures and the organisation of your box. You can store your miniatures in the foam inserts and the game material can be neatly organised using the card holders. This saves you time when setting up the game and you can put the time you save into playing. The set consists of: 1 large foam insert with compartments cut to fit five large miniatures. 2 small foam inserts for 13 small miniatures each. - Larger models, such as Abbadon, have compartments cut to fit miniatures in the large foam insert. Smaller miniatures such as the numerous NPCs, heroes and enemy models are provided with custom-fit compartments. Thanks to this, the miniatures sit firmly in place. Even during transport through the darkest Middle Ages, they do not slip, remain in place or bump into each other. - The soft, fine-pored foam reliably protects your figures from damage. You don't need to worry about scratches and chipped paint on your painted figures or broken details on your miniatures. 1 card holder made of robust plastic with four compartments for map tiles and other game material. - The 67 map tiles from the base game can be stored in the large square compartment. - The coin tokens can be stored in the long compartment. Experience and Pairs of Trade Tokens can be sorted into the other two compartments. 1 Plastic card holder with nine compartments for playing cards, dice and tokens. - There are two card compartments for playing cards such as item cards and destiny cards. Of course, the cards also fit into the compartments with sleeves. (max. dimensions sleeved 60 mm x 93 mm). - The remaining seven compartments are used to store points of interest markers, skill marker tokens, effort and main dice. Place the player boards on the plastic trays. The two small foam mats compensate for height differences within the box. Place them on and under the two small foam inserts. Finally, cover everything with the foam lid provided. This ensures that none of your pieces bump into the lid of the board game box during transport. Finally, place the rulebook on the foam lid. This ensures that all the contents of the box have a place, the game contents are clearly organised and the miniatures are safely stowed away. - high-quality, fine-pored foam- chlorine-free and acid-free- Made in Germany As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic- no assembly required - ready to play- 3D printed in Germany
