from **18,13 EUR**

Item no.: 379644
shipping weight: 0.40 kg
Manufacturer: Feldherr

Product Description

Out of the city. Off to the country. Roll up your sleeves and conjure up an agricultural oasis of well-being from your grandfather's dilapidated farm. To make sure you don't accidentally feed the fields and plough the cattle, we have included the matching Feldherr Organiser for the board game version of the successful computer game. It ensures that your board game box is tidy and your game material is clearly organised. This prevents any serious mix-ups that could cost you the farm. - The Feldherr Organiser fits into the "Stardew Valley" basic game box. - The set offers space for all the game material from the "Stardew Valley" basic game. - The original "the Supply" resource tray remains in the box and is still used for the resource tiles. However, the second plastic "Organiser" insert supplied is no longer needed and is replaced by the Feldherr Organiser. - The card holders can be placed on and next to the playing field. - All playing cards also fit with protective sleeves (max. outer dimensions of my sleeves: 71 x 45 mm + 94 x 69 mm). - Place the bags for minerals and fish next to the 3D inserts. This fixes the organiser in the box. - The player mats rest on the two token holders, each with 8 compartments. - Large-format components such as the game board, the supplied plastic tray "the Supply", rule book and "Strategies & Tips" sheet are stored on the organiser. - transport and tip-proof - vertical storage possible - "Ready to Use" - no assembly required. Even if the cute design appeals more to the younger target group, Stardew Valley is a complex board game that is easy to lose track of. To prevent this from happening to you, we have taken control of your board game box and are here to help. The six card holders and three token holders ensure that your game material remains neatly organised both in the box and on the playing field. The clear structure of the organiser allows you to set up the game quickly. Tedious pre-sorting is a thing of the past. Simply take the inserts out of the box and spread them out on the table. You can place the card holders on and next to the playing field and even use the large card holder to draw and place your stacks of cards. So everything is ready and you can get started. The set consists of: - 1 card holder "large", made of plastic with 2 compartments for normal-sized cards such as Season Cards. Use 1 compartment as a tray. - 2 card holders "small", made of plastic, each with 2 compartments for normal-sized cards such as Map Cards, Goal Cards, Villager Cards and Mine Level Cards. - 2 card holders made of plastic, each with 4 compartments for small cards such as Mine Event Cards, Profession Upgrades Fishing, Epic Item Cards, Profession Upgrades Farming, Bundle Card, Profession Upgrades Foraging, Starting Tool Cards, Profession Upgrades Mining. - 1 card holder made of plastic with 2 compartments for normal-sized cards such as Map Cards, Goal Cards, Villager Cards and Mine Level Cards. - 1 plastic card holder with 2 compartments for small cards such as item and event cards. - 1 plastic token holder with 5 compartments for small game material such as dice, playing pieces, Joja Tiles, Building Tiles, Animal Tiles and Starting Player Tokens. - 2 plastic token holders with 8 compartments each for Heart Tokens, Gold Tokens, Forgeable and Tree Tiles. With a recess for Player Mats. The original supplied resource tray "the Supply" remains in the box and is still used for the resource tiles. In contrast, the second plastic insert "Organizer" supplied is no longer needed and is replaced by the Feldherr Organizer. Artifact and Mineral Tiles are stored in the grey Artifact/Mineral bag. Fish, Trash and Treasure Tiles are placed in the blue Fishing bag. Both bags are placed next to the Organiser and secure it in the board game box. Large-format components such as the game board, the included resource tray, rules booklet and "Strategies & Tips" sheet are stored on the Organiser. - thermoplastic - made from renewable raw materials - no assembly required - ready to play - 3D printed in Germany. As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. * Tested with premium protective cases from GameGenic and Ultra Pro
